It is important to allow time for information and training in how to construct an exam in Inspira, the University's procured system for electronic examinations. The system is not intended for home assessment, but home assessment using Inspira is allowed at present in view of the current circumstances. The Examinations Coordination Office has set up an information centre for Inspira on Klostergatan. Contact them by email: tentamensamordning@uadm.uu.se
- Once this week, Thursday 26 March, 13:00–14:00, an introduction will be given via Zoom on how to create tasks and groups of tasks for use in an exam, along with some common pitfalls. Register by email to staffan.emren@uu.se (*limited number of participants, first come first served*)
