Assessment

For a Pass grade, the student shall fulfil the learning outcomes of the course (see course syllable). This includes presenting the project work as a seminar within the group where the work has been carried out. Furthermore, a report must be written and approved by the examiner. The grade (passed or failed) is given by the examiner after consultation with the supervisor.

Examination

Student:

Course:

To achieve the learning outcomes described in the course syllabus, the student should perform a number of tasks. Some of these are listed below, and their completion shall be confirmed by the supervisor:

	Accomplished yes/no
Participation in research group seminars	
Presentation of a selected research article (valid for second level)	
Presentation of research progress	
Final oral presentation of project work	
Written report of project work	

Date/Signature of Supervisor

Title of project report:

I have reviewed and approved the written report of the project work. Based on the student's total achievements, I find that he/she has fulfilled the requirements of this course.
